

End Domestic Abuse WI Lethality Assessment Program (LAP) & Data Entry Hub

User Manual Version 4

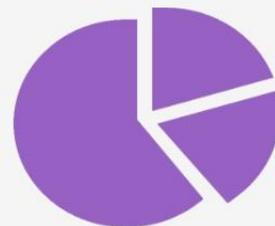

Welcome to Wisconsin's Domestic Violence Lethality Assessment Program (LAP) Data Portal. This site is both a resource and a data collection and analysis tool for End Domestic Abuse Wisconsin and LAP implementing communities. For more information about the LAP and how to implement it in your community, please visit: www.endabusewi.org/homicideprevention

Lethality Assessment Program

Purpose

This computerized program will allow for the entering of data from all towns, cities, and agencies that have interactions with Domestic Violence victims. The purpose of this scalable website program is to allow for a singular collection point of all Lethality Assessment forms into an industry standard database that can then generate the appropriate reports for management with accurate and timely data.

Operation

The Lethality Assessment Program website allows for the entry of data and generation of reports to ensure that Domestic Violence victims are receiving the support necessary.

- The program allows for data entry of Lethality Assessment forms from the police agencies that are the first to encounter the victims.
- The program allows Domestic Violence Agencies to add additional information to the forms, and to verify that the entries from the police agencies is accurate.
- The program allows administrators to change town and agency information, adding new users, towns, or agencies into the system.
- The program allows the appropriate reports to be generated based upon the data entered by the end users.

Overview of Program

Website

This website will be a single access point for all agencies involved in this project. This website will provide an effective and efficient way of collecting data regarding domestic violence screenings performed by the police services of the state.

Security

Access to all aspects of this program will be security dependent. Members logging into the website will be given authorization by an administrator(s), which will regulate what actions can be performed by the end users. Security authorizations will range from end users to administrators.

Website User Manual

Home Page

This page is the initial page that will be accessed by all users and any visitors to the website. It will give direction on how to access the website with a registration and login button, and then allow the user to access websites based upon security values.

Each associated page with this program can be accessed from this page by clicking on the menu bar and selecting from the dropdown menus.

Some content associated to the Lethality Assessment Program can be accessed simply by clicking on the available dropdown menus or the icons on the page.

The screenshot shows the website's home page with a purple navigation bar at the top containing 'Lethality Assessment Program', 'Documents', 'Extra', 'Register', and 'Log In'. Below the navigation bar is a large banner image of a woman and a child in a field, with the text 'End Domestic Abuse WI – The Wisconsin Coalition Against Domestic Violence'. A welcome message follows, stating the site is a resource and data tool for the Lethality Assessment Program (LAP) Data Portal, with a link to www.endabusewi.org/homicideprevention. Below this is a message for 'New LAP Coordinators' with a link to 'Click HERE to Register for database access.' The main content area features six icons: a computer monitor with a document (Domestic Violence In-Service Training Bulletin), a person at a computer (In-Service Training Videos), a magnifying glass over a computer screen (Website Navigation Training Videos), two hands shaking (End Domestic Abuse WI Get Help Page), and the 'end domestic abuse WI' logo (End Domestic Abuse WI Homepage).

User Registration

Prior to having access to the program, users must first register their information with the website. By clicking on Register in the top righthand side of the page (see Fig. 1).

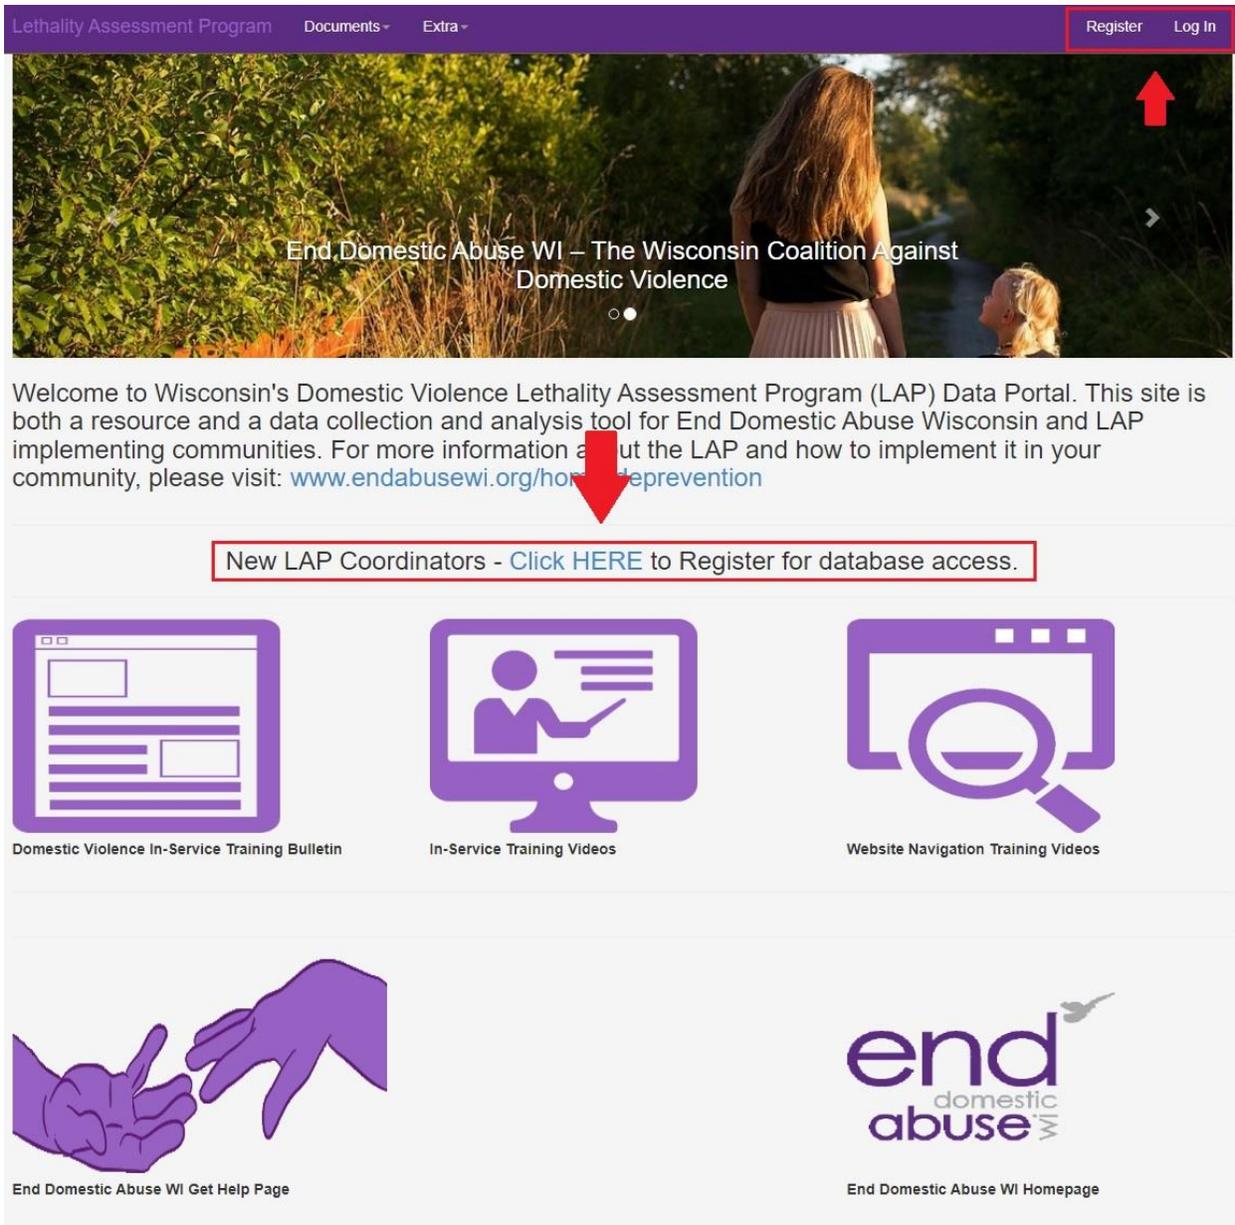

Fig. 1

You will be directed to a Registration page where you must enter the following information (see Fig 2):

Lethality Assessment Program Documents ▾ Extra ▾ Register Log In

Register

Create a new account

First Name

Last Name

User ID
Please don't use the characters !, &, ", ', or ()

Select Agency ▾
(Departments/Sheriffs select your Town/Sheriff Office, Domestic Abuse Agencies select your Agency.)
(Sheriff's Offices are at the bottom of the list.)
(Please be aware that your jurisdiction may be listed as a City of... Town of... or Village of... as applicable.)
(In the case of multiple towns in Wisconsin with the same name, they will be listed as: Town_County)

Telephone Number
(Please enter just 10 numbers #####, no -)

Email
(Please enter a valid Email address jsmith@email.com)

Password
(Minimum 6 to Maximum of 16 characters)

Confirm password
(Must be the same as the password above)

Fig. 2

First Name – Your first name (No special characters should be used)

Last Name – Your last name (No special characters should be used)

User ID – Choose a User ID that you can remember

Agency – All Police Departments, Domestic Violence Agencies must select from the dropdown list provided. (see Fig. 3)

Fig. 3

Telephone Number – 10-digit telephone number with no extension (i.e., 2035551212)

Email – Email address that you can receive information from the program/administrator

Password – min of 6, max of 16 characters including upper and lower case letters, numbers and special characters. Passwords are case sensitive (please do not use / ' &)

Once all of the appropriate fields have been entered, click on the Register button at the bottom of the screen.

If you need assistance in How to Register, click on the link and you will be brought to the Training Page where you can watch a video that you guide you through the process.

After registration is completed, you will see a registration page from the website alerting you that your request for access has been sent to the Administrator(s) (see Fig. 4)

Fig. 4

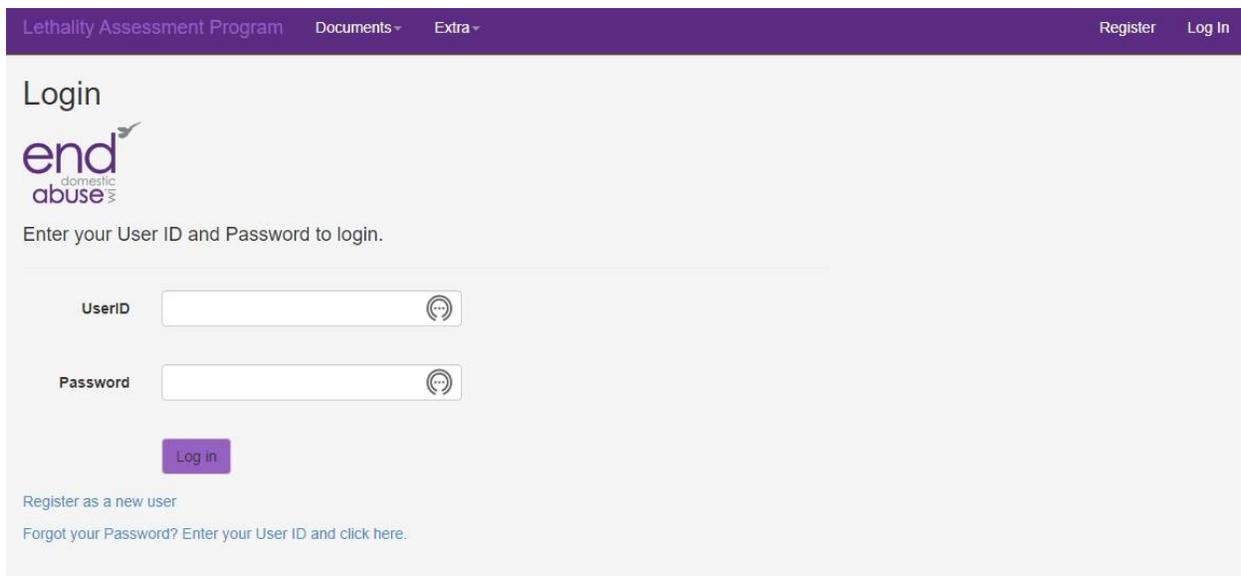

The Administrator(s) of the program must then go in and authorize the user for access to the system. Once the user is authorized by the Administrator, you will receive an email at the Email Address that you entered during your registration letting you know that you can now go in and access the system.

Please make sure that you allow emails from the sender domain @ctlap.org. If you do not see the email, check your Clutter or Junk folder and setup your email to not block the sender.

Access will then be granted through the Login Page, which can be reached from the Home Page.

User Login

From the Home Page, click on the Log in button on the top right of the page. You will then be directed to the Login page (see Fig. 5).

The screenshot shows the login interface for the Lethality Assessment Program. At the top, there is a purple navigation bar with the text "Lethality Assessment Program" on the left and "Documents - Extra - Register Log In" on the right. Below the navigation bar, the page title "Login" is displayed. The logo for "end domestic abuse" is visible, with "end" in a large font and "domestic abuse" in a smaller font below it. A prompt reads "Enter your User ID and Password to login." Below this, there are two input fields: "UserID" and "Password", each with a small circular icon to its right. A purple "Log in" button is positioned below the password field. At the bottom of the form area, there are two links: "Register as a new user" and "Forgot your Password? Enter your User ID and click here."

Fig. 5

Enter your User ID and Password, then click on the Login button on the bottom of the page. (***Note: Passwords are case sensitive**)

You will be returned to the Home Page and should see all of the modules available in the program. From here, based upon your security level, you will be capable of accessing the menu at the top of the page to navigate through the program (see Fig. 6)

Fig. 6

Login Errors

If you have forgotten your password, then it can be reset by you. At the bottom of the Login page you will see a link that says, “Forgot your Password, Enter Your User ID and Click Here” (See Fig. 7)

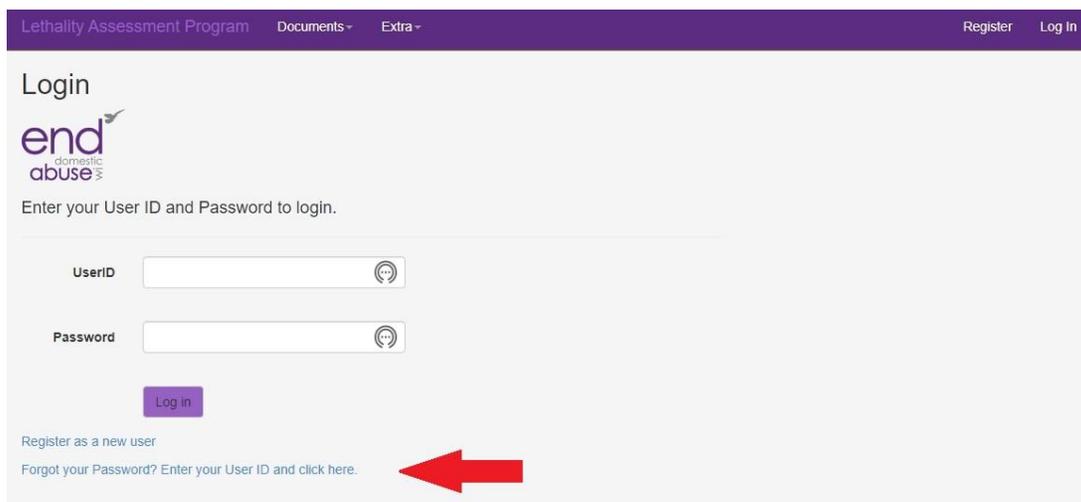

Fig. 7

By entering just your User ID, and clicking on that link, you will receive a Temporary Password in your Email account that you entered when you registered. Once you have that Temporary Password, go back to the Login page and enter your User ID, Temporary Password, and click on the Login button. You will be directed to a page to re-enter your password (see Fig. 8).

Theinsville	0	0	0	0	0	0	0	0	Edit

12

Please continue to track data by month. Data needs to be entered quarterly into the system. Data entry is due by the 10th of Jan, Apr, July and October for LE Agencies, and by the 15th for DV Programs

Fig. 9

The entry of data is also restricted based upon the security level of the user's access. Data entry for the following fields can be completed by the Police Agency:

- High Danger Screens
- Non-High Danger Screens
- Did Not Answer
- Spoke to Hotline Worker

Data entry for the following fields can be completed by the Domestic Violence Agency:

- All listed above plus:
- Officer Calls
 - Went to Service

Entry Criteria is setup in the program so that data is not capable of being changed after a certain period of time. This is a date in the current month that will only allow you to change the prior month until this date passes. Police Agencies have a grace period of up to ten (10) days, while Domestic Violence Agencies have a grace period of fifteen (15) days.

To enter data, click on the Data Entry tab on the top of the Home Page. You will then be directed to the Data Entry page. This page will automatically be filled with the town(s) you are responsible for. You will see town names highlighted in light blue if data has not been entered for the month selected (see Fig. 9).

At the top of the page, you will see dropdown lists for the Year, and the Month you want to enter data for (see Fig. 10). By choosing the appropriate Year/Month, you can select which month you are entering the data for, based upon Entry Criteria.

12

Please continue to track data by month. Data needs to be entered quarterly into the system. Data entry is due by the 10th of Jan, Apr, July and October for LE Agencies, and by the 15th for DV Programs

Fig. 12

(*Note: Even if a town has no Lethality data to enter for a month, you must still Edit the town, and then click Update to record the zero values.)

You can edit the numbers in any town that you are responsible for up until the Entry Criteria is met. It is recommended that you enter data daily or weekly for each month to ensure that data is entered prior to the Entry Criteria date. Once the Entry Criteria date is passed, then an Agency representative can change the data for that town, and in the case of an Agency, only the Administrator can change data once your Entry Criteria is passed.

Agency Data Entry

Agencies can enter data the same way as a Police Department. Agencies will also have access to the Officer Calls and Went to Service fields during data entry for each town they are responsible for.

If for some reason the Officer Calls field for a town is less than the number of High Danger Calls for that town, then additional information is required to be entered prior to the data being saved. An error message will display to warn you that there is a discrepancy in the data entered (see Fig. 13).

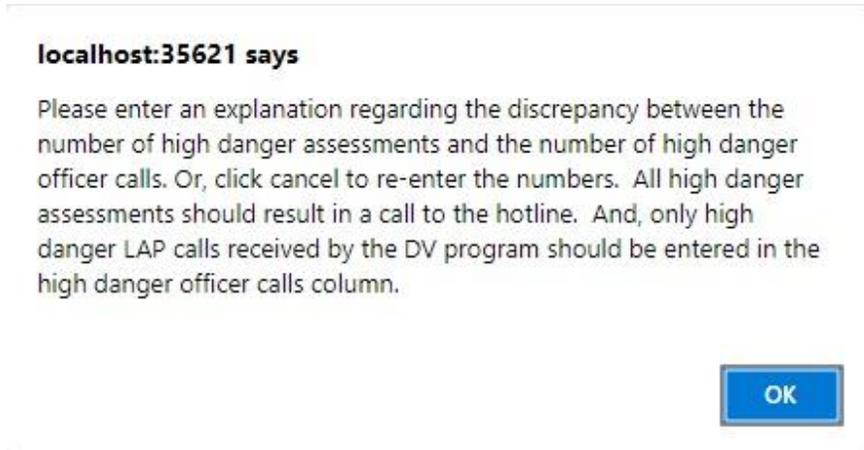

Fig. 13

The Agency must enter information in the Explanation field that will show below the list of towns or adjust the data in the appropriate fields. Once the explanation has been entered in the Reason field, click the Update button to save the data. Explanations must include a short reason and the Police Case #, if possible (see Fig. 14).

Explanation:

Please continue to track data by month. Data needs to be entered quarterly into the system. Data entry is due by the 10th of Jan, Apr, July and October for LE Agencies, and by the 15th for DV Programs

Fig. 14

Reports

This program will allow you to view the data and then generate reports based upon the data that has been entered. These reports can be output to an Excel Spreadsheet form.

Reports available to you are based upon your user security level. You can generate a number of reports from the system to track your entries, and your Lethality Screens. These reports include:

- Monthly Reports
- Towns by Date Range
- Agencies by Date Range
- Task Reports
- Email Reports
- Admin Report
- Admin by Date
- Admin Tasks

Clicking on the Reports Drop Down Menu on the Home Page will bring you to the available reports (see Fig 15).

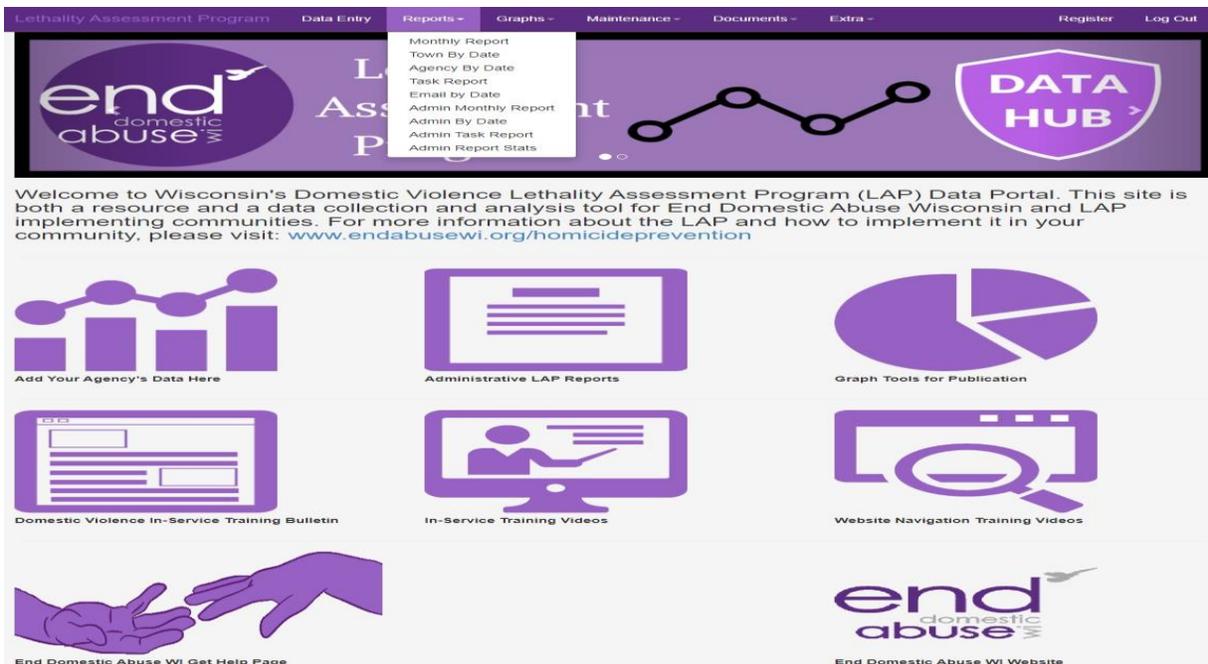

Fig. 15

Monthly Reports

Clicking on the Monthly Reports button will allow you to track your data entry on a per month basis. This report will show you each month that is entered as you select the month/year from the dropdown fields (see Fig. 16, 17, 18). Those towns highlighted in yellow did not report for the given time period of the report.

Town Monthly Report

Jurisdiction	County	Population	Lethality Screens	High Danger	Non-High Danger	DNA	Spoke to Hotline Worker
Fond du Lac	Fond du Lac	43,021	19	3	6	10	2
TOTAL		43,021	19	3	6	10	2

Fig. 16

Sheriff's Office Monthly Report

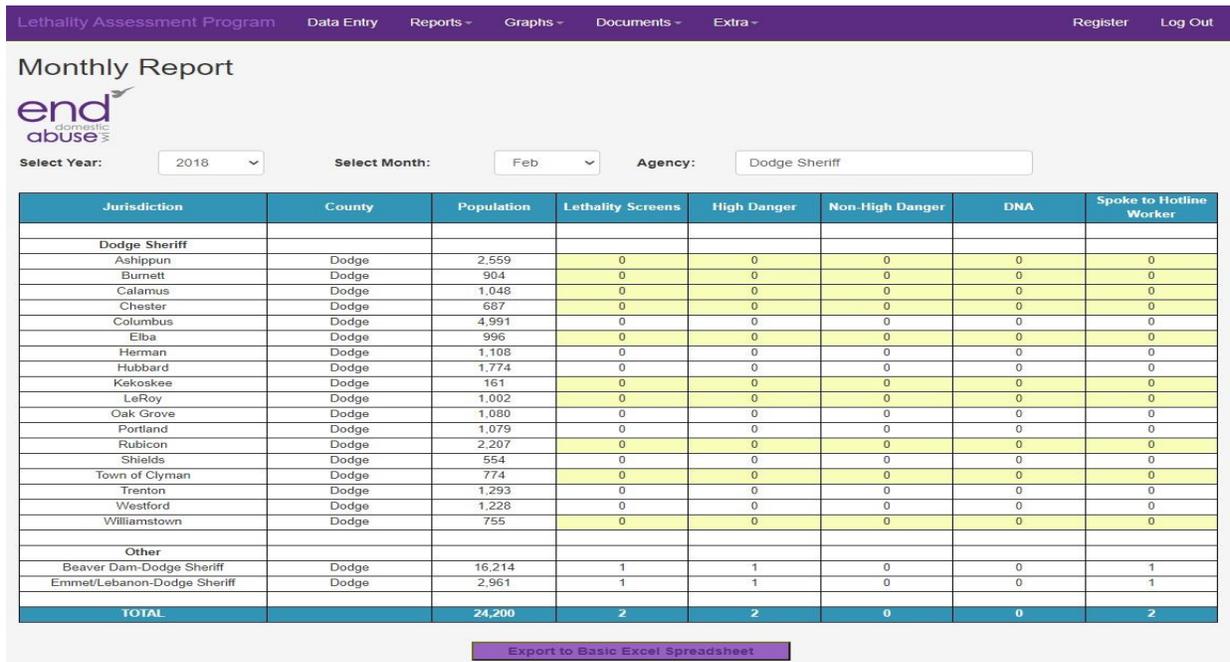

Fig. 17

Town of Saukville	Ozaukee	1,755	0	0	0	0	0	0	0	0
TOTAL		90,049	9	7	2	0	7	7	2	2

Fig. 19

Town by Date Range

You can generate a report that will show activity for your town(s) that you are responsible for by a date range. By selecting the beginning date, end date, and clicking on the Update Grid button, a report will be generated for that town during that time period. (see Fig. 20)

Fig. 20

Dependent upon the date range selected, two different reports will be generated. If the date range is within a 12-month period, then a report covering each month will be

generated (see Fig. 21). If the date range is greater than 12 months, a yearly report will be generated (see Fig. 22).

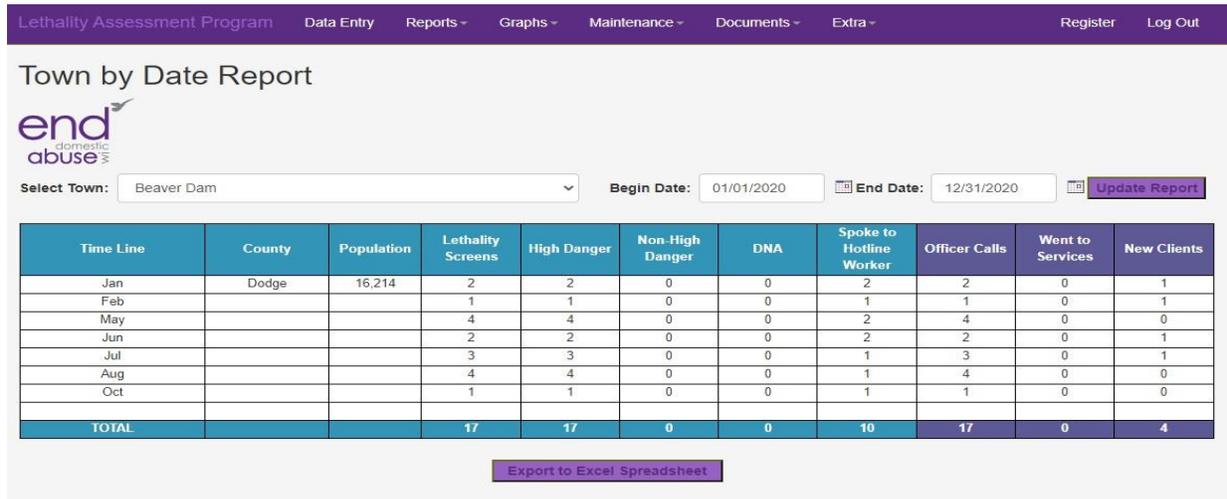

Fig. 21

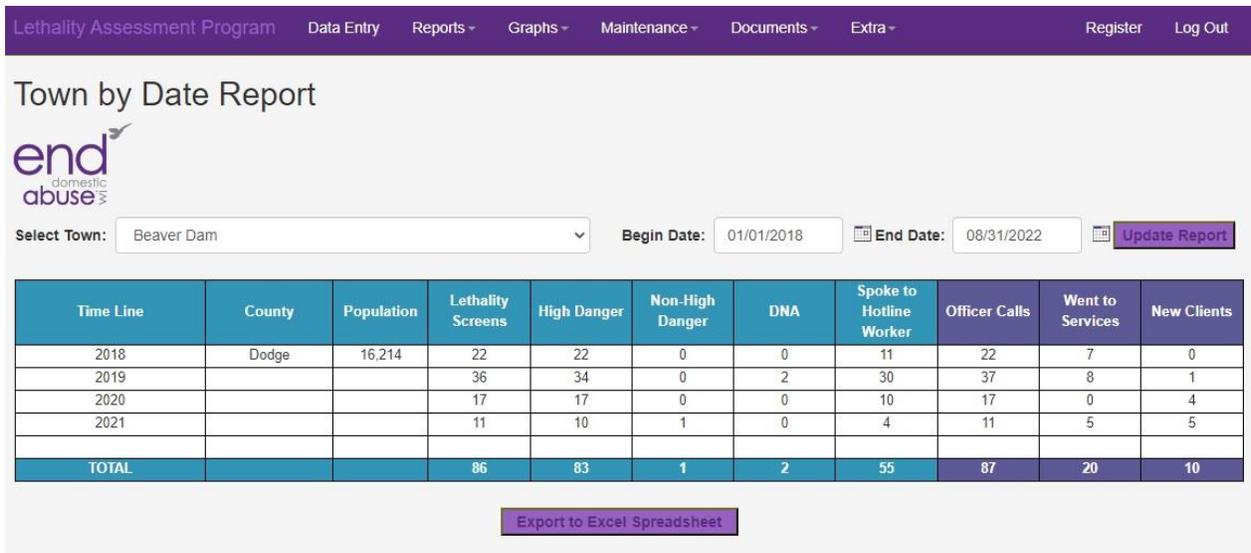

Fig. 22

Agency by Date Range Report

The same types of reports are available to Domestic Violence Agencies as the Town by Date Range Reports.

Dependent upon the date range selected, two different reports will be generated. If the date range is within a 12-month period, then a report covering each month will be generated (see Fig. 21). If the date range is greater than 12 months, a yearly report will be generated (see Fig. 22). These reports will contain all the towns covered by the Agency.

Task Report

The Task Report will generate a report that will alert a Domestic Violence Agency when no data has been entered for a specific police agency associated to a town. This report will then allow the Agency to automatically send an email to the police agency.

Clicking on Task Report from the Report Menu page will show you if data is missing from a specific town for the month/year selected (see Fig. 23).

The screenshot shows the 'Task Manager' interface for the 'end domestic abuse WI' program. It includes a navigation bar with options like 'Lethality Assessment Program', 'Data Entry', 'Reports', 'Graphs', 'Documents', 'Extra', 'Register', and 'Log Out'. Below the navigation bar, there are filters for 'Select Year:' (2022), 'Select Month:' (Jun), and 'Agency:' (Hope House). The main content is a table with three columns: 'Jurisdiction', 'Notes', and 'Send Email'. The 'Send Email' column contains checkboxes, some of which are checked. A 'Send Selected Emails' button is located at the bottom of the table.

Fig. 25

A message box will advise you as to the towns that will successfully receive the email. If there is no police agency contact information, then you will be notified that the specified town has no contact information.

Email Report

The Email Report is a list of all the emails that have been generated by the program. This report will show you if you have sent email(s) from your Agency to a specific town, who received the email, the subject matter of the email, the message in the email, and what date the email was sent (see Fig. 26).

Graph Tool

The website allows you graph your data based upon a date range. These graphs can show you your data entry values so that you can analyze your town/agencies data. All graphs can be exported allowing you to incorporate them into your own reports (see Fig. 27).

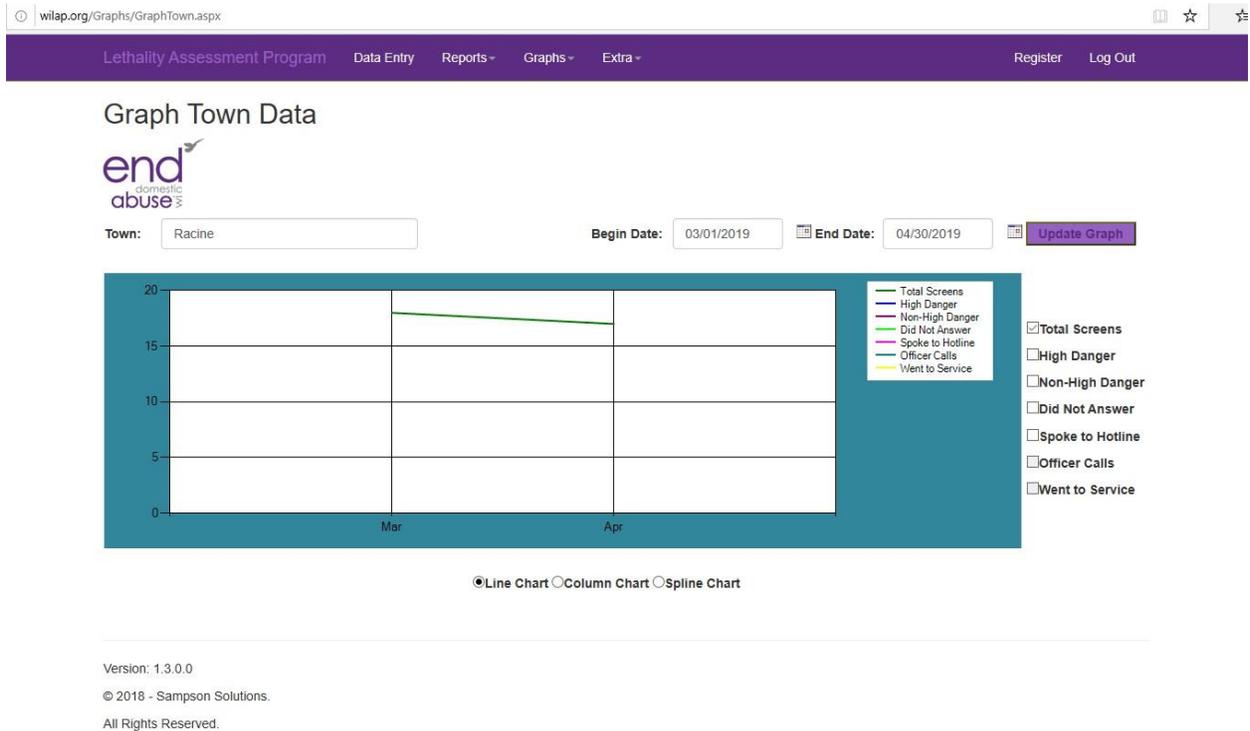

Fig. 27

Each category is selectable and by right clicking on the graph, you can save it away on your local computer or paste it into a custom report.

Help Page

The Help page can be accessed by clicking on the Extra button and selecting Help from the dropdown menu. This page will give you the 2015 Instructions for the Data Entry Fields.

Help

Instructions for Filling Out the LAP Statistical Report

(2018)

General Instructions for Use of the LAP Reporting Program

Instructions for Law Enforcement Agencies or Agency Maintaining Records

The below categories represent figures captured by participating law enforcement agencies. Each agency participating in the LAP in your catchment area is individually represented on the report.

Jurisdiction: Reporting law enforcement agency.

County: County in which the reporting agency is located.

Population: Population served by the reporting agency, in terms of calls for service. For a university police department, for example, that might mean the university's population the police department serves directly.

Lethality Screens: Total number of Lethality Screens administered by the reporting agency during the reporting period, such as one month (monthly report) or one quarter (quarterly report).

Number of days within the reporting period. For one month that might be 28, 30 or 31 days. Or it may be the number of days in the reporting period in which the reporting agency participated in the LAP; this would be the case for agencies that initiated implementation, for example, in the middle of the reporting period. An agency beginning on June 15th would record 16 days as the "# of days" in the month in which it participated in the LAP.

Screens/Day: Automatic calculation that divides the number of Lethality Screens for the reporting period by the number of days in the reporting period. LAP Statistical

Screens/Pop: Automatic calculation that divides the number of Lethality Screens for the reporting period by the size of the served population.

High Danger: Number of Lethality Screens where the victim has been assessed as being at "High Danger," either based on the protocol or on the belief of the officer. Report the number of High Danger assessments based on the protocol and officer's belief as a combined number. For your own monitoring purposes, you may want to separate the two.

% High Danger: Automatic calculation that divides the number of High Danger Lethality Screens by the total number of Lethality Screens.

Non-High Danger: Number of Lethality Screens where the victim has been assessed as being at "Non-High-Danger."

% Non-High Danger: Automatic calculation that divides the number of Non-High Danger Lethality Screens by the total number of Lethality Screens.

DNA: "DNA" is the acronym for "Did Not Answer." DNA means that the victim declined to answer ALL of the questions on the Lethality Screen. This would apply when the officer initially introduces the Lethality Screen to the victim and (s)he says that (s)he doesn't want to answer the questions, then declines again when the officer encourages her/him a second time to answer. This type of Lethality Screen is counted as an administered Lethality Screen because the officer believed the victim should be assessed.

% DNA: Automatic calculation that divides the number of "DNA" Lethality Screens by the total number of Lethality Screens.

Spoke to Hotline Worker: Number of High Danger victims who speak by phone to the hotline worker after being encouraged by the officer to do so.

% Spoke to Hotline Worker: Automatic calculation that divides the number of victims who spoke to the hotline worker by the number of High Danger Lethality Screens

Instructions for Domestic Violence Program or Agency Preparing Report

The below categories represent figures captured by the domestic violence program.

Officer Calls: Number of calls your hotline received from officers on the scene of an IPV or DV call after completing a LAP questionnaire, regardless of assessment outcome.

% Officer Calls : Automatic calculation that divides the number of Officer Calls received by the number of High Danger Lethality Screens received from those officers' reporting agency.

Went to Services: Any victim-initiated contact after a LAP call that involves safety planning, individual or group supportive counseling, providing resources, information, referrals, or medical/court accompaniment, or any services where an "intake" is conducted.

% Went to Services: Automatic calculation that divides the number of High Danger victims who spoke to the hotline worker by the number of High Danger Lethality Screens.

New Clients: Any person who accesses services after a LAP call that is a new client to the DV program – i.e., they have never accessed ANY of your agency's services before, according to an agency records search, or the victim's self-report upon intake.

% New Clients: Automatic calculation that divides the number of Total Screens by the number of New Clients.

Fig. 28

Contact Page

The Contact page can be accessed by clicking on the Extra button and selecting Contact from the dropdown menu. This page will give you the contact information for the State's Coalition Against Domestic Violence and the program's technical support contact information.

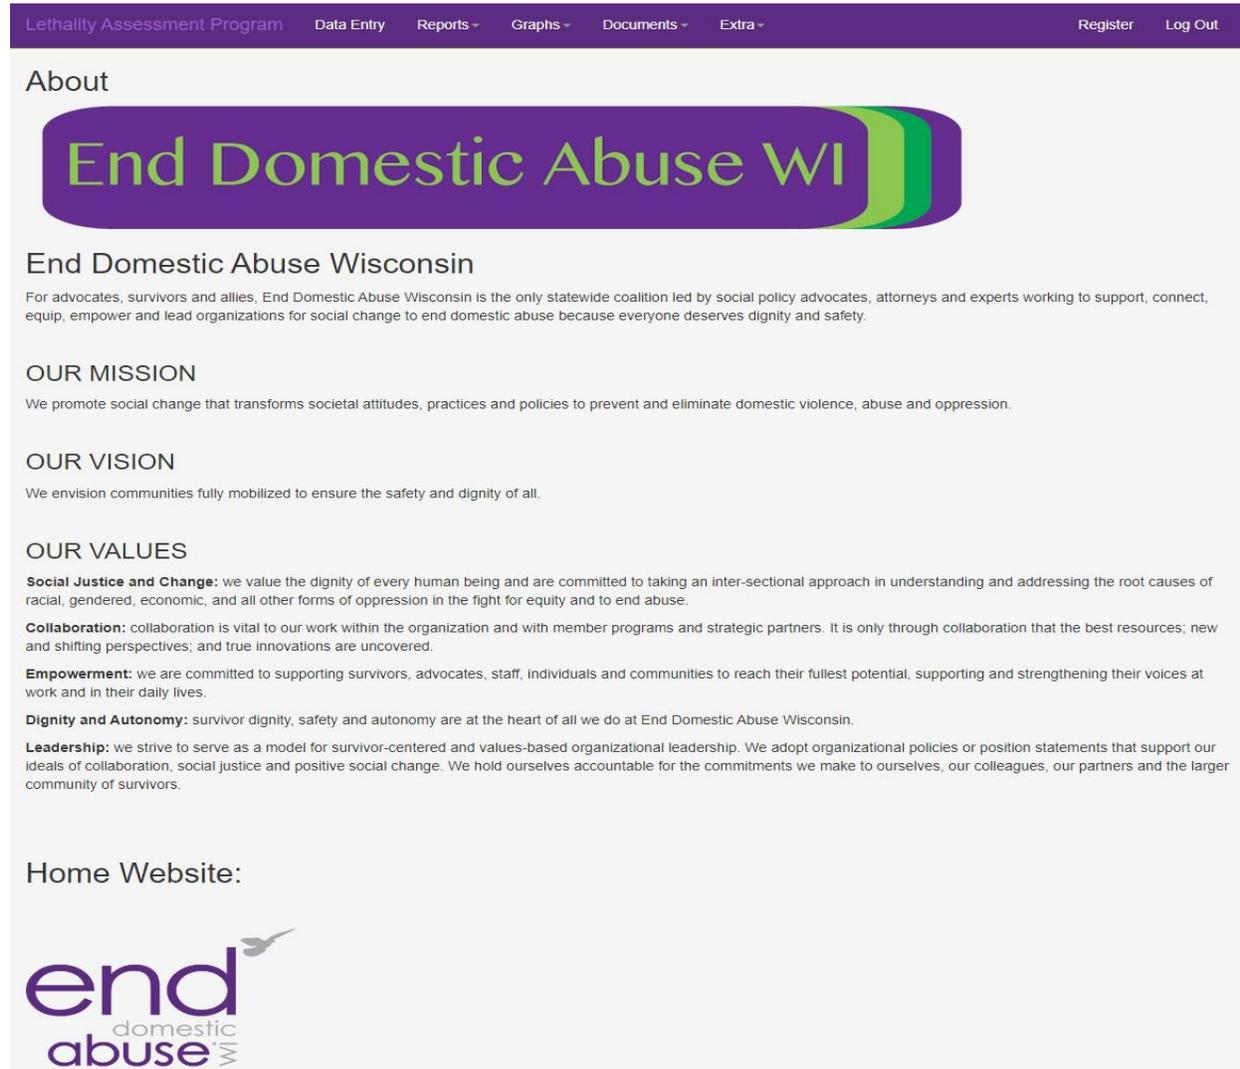

The screenshot shows a web application interface with a purple navigation bar at the top. The navigation bar contains the following items from left to right: "Lethality Assessment Program", "Data Entry", "Reports", "Graphs", "Documents", "Extra", "Register", and "Log Out". Below the navigation bar, the page title "Contact" is displayed. A large purple banner with rounded ends and a green-to-purple gradient on the right side contains the text "End Domestic Abuse WI" in a light green font. Below the banner, the contact information for the Wisconsin Coalition Against Domestic Violence is listed: "Wisconsin Coalition Against Domestic Violence", "1245 East Washington Avenue, Suite 150", "Madison, Wisconsin 53703", "Phone: (608) 255-0539", and "Fax/TTY: (608) 255-3560". Below this, contact information for general LAP support is provided: "General LAP support in WI, contact Sara Krall: sarak@endabusewi.org or Olivia Osborne: oliviao@endabusewi.org" and "Software Support: csampson@sampson.solutions". At the bottom of the page, a disclaimer states: "This website is expressly developed for The Wisconsin Coalition Against Domestic Violence and its End Users for the gathering/reporting of data. This computer program is protected by copyright law, and international treaties. Unauthorized reproduction or distribution of this program, or any portion of it, may result in severe civil and criminal penalties, and will be prosecuted to the maximum extent possible under the law."

About

End Domestic Abuse WI

End Domestic Abuse Wisconsin

For advocates, survivors and allies, End Domestic Abuse Wisconsin is the only statewide coalition led by social policy advocates, attorneys and experts working to support, connect, equip, empower and lead organizations for social change to end domestic abuse because everyone deserves dignity and safety.

OUR MISSION

We promote social change that transforms societal attitudes, practices and policies to prevent and eliminate domestic violence, abuse and oppression.

OUR VISION

We envision communities fully mobilized to ensure the safety and dignity of all.

OUR VALUES

Social Justice and Change: we value the dignity of every human being and are committed to taking an inter-sectional approach in understanding and addressing the root causes of racial, gendered, economic, and all other forms of oppression in the fight for equity and to end abuse.

Collaboration: collaboration is vital to our work within the organization and with member programs and strategic partners. It is only through collaboration that the best resources; new and shifting perspectives; and true innovations are uncovered.

Empowerment: we are committed to supporting survivors, advocates, staff, individuals and communities to reach their fullest potential, supporting and strengthening their voices at work and in their daily lives.

Dignity and Autonomy: survivor dignity, safety and autonomy are at the heart of all we do at End Domestic Abuse Wisconsin.

Leadership: we strive to serve as a model for survivor-centered and values-based organizational leadership. We adopt organizational policies or position statements that support our ideals of collaboration, social justice and positive social change. We hold ourselves accountable for the commitments we make to ourselves, our colleagues, our partners and the larger community of survivors.
